1 Identification of the substance and manufacturer			
Trade name:	5 WAY CORROSION INHIB & LUBE		
Product code: Recommended use: Uses advised against: Manufacturer/Supplier: Emergency telephone number:	0006201541 Paint and coatings application. Any that differs from the recommended use. Seymour of Sycamore 917 Crosby Avenue	Seymour of Sycamore 3041 Dougall Avenue, Suite 503 Vindsor, ONT N9E 1S3 CANADA phone: 800-435-4482 www.seymourpaint.com	
2 Hazard(s) identification			
Classification of the substance or m	ixtura		
Flammable Aerosols 1	H222 Extremely flammable aerosol.		
Gases under Pressure - Liquefied gas	H222 Extremely naminable acrosol. H280 Contains gas under pressure; may explode if hea	ated	
Eye Irritation 2A	H319 Causes serious eye irritation.	aled.	
Carcinogenicity 1B	H350 May cause cancer.		
c	Exposure 3 H336 May cause drowsiness or dizziness.		
Signal word Hazard statements	Danger Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. May cause cancer. May cause drowsiness or dizziness.		
Precautionary statements	Obtain special instructions before use. Keep away from heat/sparks/open flames/hot surfaces No smok Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face prote IF INHALED: Remove person to fresh air and keep comfortable for If in eyes: Rinse cautiously with water for several minutes. Remo easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention. Store in a well-ventilated place. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50 Dispose of contents/container in accordance with local/regional/na	ection. breathing. we contact lenses, if present and 0°C/122°F.	
3 Composition/information on ingr	redients		

Composition Mixtures Chemical Description: This product is a mixture of the substances listed below with nonhazardous additions. Dangerous components: 67-64-1 Acetone 64742-47-8 Mineral Spirits 74-98-6 propane 106-97-8 n-butane 111-76-2 Glycol Ether EB

4 First-aid measures After inhalation: After skin contact: After eye contact:	Supply fresh air; consult doctor in case of complaints. Remove contaminated clothing. Wash exposed area with soap and water. Rinse opened eye for several minutes under running water. If symptoms persist, cor	peult a doctor
After swallowing:	Rinse out mouth and then drink plenty of water. Rinse mouth with water. Do not induce vomiting.	
Most important symptoms and effects: Indication of any immediate medical	Dizziness	
attention needed:	No further relevant information available.	
5 Fire-fighting measures		
Extinguishing agents:	CO2, extinguishing powder or water spray. Fight larger fires with water spray.	(Contd. on page 2)

Special hazards: Protective equipment for infergitives: Can form explosive gas-air mixtures. A respiratory protective device may be necessary. 6 Accidental release measures Personal precedions, protective orocellures: Wear protective device may be necessary. 7 Honding and storage Proceedires: Wear protective equipment. Keep unprotected persons away. Use respiratory protective equipment to enditive equipment. Keep unprotected persons away. Use respiratory protective equipment to enditive equipment. Keep unprotected persons away. Use respiratory protective equipment to enditive equipment. Keep unprotected persons away. Use only in well wentilated areas. Store locked up. 8 Exposure controls/personal protection Components that require monitoring at the workplace: Interal Oil PEL (USA) Long-term value: 5 mg/m² REI, USA) Long-term value: 200 mg/m², 1000 ppm REI, USA) Long-term value: 200 mg/m², 500 ppm REI, USA)	Trade name: 5	WAY CORROSION INHIB &	LUBE	
Protective equipment for firefighters: A respiratory protective device may be necessary. 6 Accidental release measures Personal processions, protective equipment and emergency procedures: Was reprinted we device may be necessary. 7 Handling and storage Processions for safe handling Sterage requirements: Ensure adequate ventilation. 7 Handling and storage Processions for safe handling Sterage requirements: Use only in well ventilated areas. 9 Physical and chemical propertie		
Appearance: Odor:	Aerosol. Aromatic	
Odor threshold:	Not determined.	
pH-value:	Not determined.	
Melting point/Melting range Boiling point:	Undetermined. -44 °C (-47.2 °F)	
Flash point:	-19 °C (-2.2 °F)	
Flammability (solid, gas):	Extremely flammable.	
Decomposition temperature:	Not determined.	
Auto igniting:	Product is not self-igniting.	
Danger of explosion: Lower Explosion Limit:	In use, may form flammable/explosive vapour-air mixture. 0.5 Vol %	
Upper Explosion Limit:	6.5 Vol %	
Vapor pressure:	Not determined.	
Relative Density: Vapor density	Between 0.77 and 0.85 (Water equals 1.00) Not determined.	
Evaporation rate	Not applicable.	
Partition coefficient: n-octonal/wate		
Solubility: Viscosity:	Not determined. Not determined.	
Reactivity: Conditions to avoid: Chemical stability: Possibility of hazardous reactions:	Stable at normal temperatures. Do not allow can to exceed 120 degrees Fahrenheit. Do not ware temperatures. Not fully evaluated. No dangerous reactions known. No further relevant information available.	house in subfreezi
Incompatible materials: Hazardous decomposition:	No further relevant information available. No dangerous decomposition products known.	
1 Toxicological information		
LD/LC50 values that are relevant for	r classification:	
111-76-2 Glycol Ether EB		
Oral LD50 1,200 mg/kg (AT		
1,480 mg/kg (rat Dermal LD50 400 mg/kg (rab))	
Inhalative LC50/4 h 3 mg/l (ATE)		
Information on toxicological effects		
Skin effects: Eye effects:	No irritant effect. Irritating effect.	
Sensitization:	No sensitizing effects known.	
2 Ecological information		
2 Ecological information Aquatic toxicity:	Hazardous for water, do not empty into drains.	
Persistence and degradability: Other information:	The product is degradable after prolonged exposure to natural weathering pr This product does not contain any chlorofluorocarbons (CFC's), hyd (HCFC's), perfluorocarbons (PFC's), heavy metals (chromium, lead, car solvents.	rochlorofluorocarbo
Bioaccumulative potential: Mobility in soil: Other adverse effects:	No further relevant information available. No further relevant information available. No further relevant information available.	
3 Disposal considerations		
Dispose of in accordance with local		lly amonty agona must
disposed of responsibly. Do not heat of Recommendation: Recommended cleansing agent:	state, and federal regulations. Do not puncture, incinerate, or compact. Partia or cut empty containers with electric or gas torches. Completely empty cans should be recycled. Water, if necessary with cleansing agents.	any empty can's must
